*Note:*

- *Data only include those services funded by DHS and provided by Domiciliary Equipment Service.*
- *For **Children (0-18)** and **Adults (<65)** the transition to the NDIS has led to a reduction in services funded by DHS.*
- *For **Adults > 65, Palliative Care and DHS other programs** the transition to the Commonwealth Home Support Programme has led to a reduction in services funded by DHS.*
- *The increase in services to **Adults > 65, Palliative Care and DHS other programs** in 2018-19 is primarily due to the inclusion of adults with disability, who were previously only reported under **Adults (<65)**.*
